Transition Meeting Outline June 2012.pdf

Carl –

Thank you for the update. Here are a couple additional items:

Call In Number (for Henry, Jerry, and others as needed)

Call in:

(b) (6)

PIN: (b) (6)

File – attached are a few files that show where we last left off on the Mn and the WER work:

- Mn – EPA had some comments on the proposed Mn calculation for human health (attached) and we have prepared a draft response for discussion (attached)
- WER confirmation (multi-metal) test questions and draft responses (attached)

These are the last round of questions/comments regarding these two topics that we have received that remained for discussion.

I have also included a history of the Mn and WER process as best I could compile from my records.

Look forward to the discussion tomorrow night.

Dan

Subject: Updated Agenda for Chuit River SSC

Chuit River SSC.
Draft Agenda.
Anchorage DEC Building 6-8 PM,
August 1, 2012

1. Review of time schedule for rulemaking process as seen by DEC. Carl
2. Review of project history with respect to SSC: Dan
3. Draft Decision Document, Carl
 - Overview
 - Geographic scope of decision.
 - Seasonal UAA for Manganese.
4. Discussion of possible roadblocks and solutions.
5. Next steps

By the end of the meeting we will have a calendar of the upcoming rulemaking process.

Dan has ordered pizza and other assorted food for the meeting. Donations will be taken for the food.
